Scholarships have a significant impact on student success.

The link between scholarships and increased graduation rates is clear. Scholarships help recipients stay in school, work less hours per week, and make it possible for students to attend college full time—a critical factor in successful college completion rates.

An NSCC scholarship covers approximately 13% of tuition & fees for a full-time student.

**NSCC 2015 facts**

177 scholarships will be awarded totalling $152,900

3,600 scholarships have been awarded estimating $3,000,000 since inception of NSCC’s Foundation

**QUICK FACTS ABOUT STUDENT DEBT**

Student loan debt has now exceeded credit card debt in the United States.

- The national average private 4-year college student loan debt is approximately $32,300 upon graduation.
- The national average public 4-year college student loan debt is approximately $28,400 upon graduation.
- The national average for community college student loan debt is approximately $10,000 upon graduation.
- At NSCC, the average student loan debt is approximately $6,800 (including both federal and private loans)

Scholarships help NSCC students borrow approximately 32% less than the national average of community college student loan debt.

**Students with scholarships are 20% less likely to drop out of school than students without scholarships**

Welcome!

As President of the North Shore Community College Foundation, it is my great pleasure to present the distinguished recipients of the Foundation's 2015 Scholarships. Today, the NSCC Foundation Board of Directors will award 177 scholarships totaling $152,900 to students who excel academically and in service to their college and community.

Over the last 30 years, $3 million in scholarship aid from the NSCC Foundation has enabled over 3,600 students to help cover educational expenses and incur less school-related debt. Thanks to the generosity of private and corporate donors, the Foundation proudly continues this tradition of helping students stay in school and complete their degrees.

Please join me as we recognize these outstanding students and thank our donors for their generosity!
North Shore Community College (NSCC) is one of 15 Massachusetts community colleges. The college serves 26 cities and towns along the coastal region from north metropolitan Boston to Cape Ann. Since its founding in 1965, NSCC has grown from a single building to four campuses, and from five to over 80 academic programs of study. The college has an urban campus in downtown Lynn, a suburban campus in Danvers, a workforce training and community education center in Beverly and a cosmetology and culinary center in Middleton. Nearly 35,000 students have graduated from NSCC. The college is accredited by the New England Association of Schools and Colleges, Inc., through its Commission on Institutions of Higher Education.

NSCC prepares students for the challenges of living and working in a global economy and provides a competent workforce for the north of Boston region. The College offers a 21st-century curriculum that balances liberal arts with career education delivered through a variety of instructional methods. Since 1965, over a quarter million North Shore residents have taken courses at NSCC.

**84% of our career and technical program students are employed within three months of graduation**

**92% of our graduates live and work on the North Shore**

Today's scholarship awards are made possible by the work of the North Shore Community College Foundation and the generosity of its donors. The mission of the NSCC Foundation is to create financial capacity for the College to realize its mission of student success.

Meet our Student Speaker...

Natasha Oliveira, Lynn, MA
NSCC HEALTH SCIENCE PROGRAM

Natasha Oliveira’s life is propelled by a desire to help others. She began at a young age, serving as a specialist and counselor for Camp Fire USA. Working as a support associate in the ICU at Salem Hospital made her decide to pursue a career as an occupational therapy assistant. She is enrolled at NSCC in Health Science and eventually wants to become an Occupational Therapist. As a Presidential Scholar, she has helped plan and run events such as the Halloween party for children in Lynn and helping with Breast Cancer Awareness programming. As a scholar, she greatly enjoyed working with the Forest Foundation non-profit, helping to write a grant for the organization. This experience, doing site visits and realizing there are so many people doing good, made Natasha even more interested in wanting to help others. Natasha works 32 hours a week while maintaining a 3.6 GPA. “School is something I have always taken seriously and enjoy. I know it takes hard work to succeed in life, and I am willing to put in all the effort academically in order to achieve my goal of becoming an occupational therapist.” Her career goal is to ultimately work in a hospital or rehabilitation facility. “I want to be able to make a difference in the world and I know I am capable of doing so!”

Natasha Oliveira is a transfer student. She will be attending Bay Path University in Fall 2015, where she will be pursuing a combined three-year bachelor’s & master’s degree in Occupational Therapy.

A passion for working on race cars drew Christopher Filias to NSCC to study engineering. While in California building a race car for competition, he learned from the engineers and mechanics he worked alongside the importance of education. At NSCC he has applied himself and maintains a 3.95 GPA while being a peer tutor in physics and calculus. He continues to work in manufacturing as a CNC milling machinist, manufacturing parts for the defense and semiconductor industries. He plans to transfer to UMASS Lowell to get a bachelor’s degree in mechanical engineering and ultimately would like to work as a design engineer in the defense, aerospace or robotics industry.

Daylin Munoz was born in Guatemala and came to the United States at age five. She excelled in high school and studied computer web programming, was a peer mentor for two years, did a co-op at city hall in Lynn and was also involved in the TRiO program from NSCC and took three college-credited classes before entering college. She is now in the Paralegal Program and aspires to become an attorney one day. She is a member of NSCC’s Youth Group United Club. She appreciates the country that opened its doors to her. She plans to transfer to Suffolk University and then continue to law school after North Shore.

A love for math and science and her passion for learning brought Jashmin Tin to NSCC to study to become a radiologist. A native of the Philippines, Jashmin grew up in Washington State where she won awards for math and science, was a member of the chess club, was on a Robotics team and won Rubik’s cube competitions. While working hard at her studies, Jashmin also works in the college bookstore where her supervisor calls her an exceptional employee and a very bright, enthusiastic and mature person. Jashmin also works at Market Basket. Jashmin enjoys learning and stretching her brain to its highest level. She is a go-getter who is full of energy and has a very positive outlook and attitude.
Victoria Sutherland understands the importance of education and works hard daily to increase her knowledge. Having enjoyed her business courses in high school, coupled with the goal of owning her own business, she came to NSCC to study business. Victoria has made the Dean’s List and plans to graduate with high grades. In addition to her studies, Victoria works hard helping her family and as a customer service representative at Strategic Claims Services. Her dream is to propel her love for event planning into a way to help average people hold their dream events without wiping out their bank accounts. “For me it is the best of both worlds. I get to do what I love and see the joy it brings others,” she said.

Marko Stipanovic was born in Germany where his Croatian parents were escaping the war. They came to the United States in 1998 when he was two. This is his second semester studying liberal arts and he has made the Dean’s List. Marko is involved on campus in the TRIO program, Sigma Alpha Pi, Phi Theta Kappa, and is currently tutoring history, natural sciences and mathematics to high school students. He has also worked as a supervisor in the city of Lynn’s EDIC department. After NSCC, Marko plans to go to Brandeis University to study neuroscience, then go on to Johns Hopkins University to get his M.D. and Ph.D. in neuroscience. His career plan is to become a neurologist to work with post-high school individuals who are on the autism spectrum.

Peter Daniels joined the Air Force out of high school and served until an honorable discharge paved the way for him to earn a premed degree at the University of Southern California. He returned to Massachusetts and went to work in the family carpentry business to pay off student loans. But his interest in health care work and helping others resurfaced so he enrolled in the nursing program at NSCC. He is certified as an EMT and an EKG technician and has volunteered for the past two years at area hospitals. His goal is to finish his degree and transfer to the Salem State University BSN program. He would like to follow that with a master’s degree and either work as an emergency or acute care nurse.

Thank You for Celebrating NSCC’s 50 Years!

NSCC kicked off its 50th Anniversary yearlong celebration in the fall of 2014 and will conclude the festivities with an Intimate Evening with Keith Lockhart, Conductor, and Members of the Boston Pops on October 1, 2015. Since its inception
in 1965, NSCC has grown into a comprehensive community college offering over 80 associate degree and certificate programs to 15,000 students a year. Approximately 250,000 people have taken courses at NSCC.
