Bake n Joy started in 1941 selling bread and donut mixes. In 1980 they started the frozen batters for products including muffins, cakes, loaf cakes, single serve dessert cakes. Among their more popular items include fat free, low fat, low carbohydrate, all natural, whole grain and sugar free bakery products. Some of their more popular flavors are apple, cinnamon, blueberry, banana and butter rum.

An intern will work with production, quality assurance and research and development departments. Raw material and finished product inspection will include baking, sensory evaluation, laboratory testing (i.e. viscosity, total moisture, fat, saturated fat, trans fat, protein) nutritional labeling, HACCP, food safety, cleaning and sanitizing.
