Activating Your North Shore Gmail Account

Prior to using your new NSCC Google Apps Gmail account you first need to activate it. To activate your NSCC Gmail account, we suggest using Mozilla Firefox as your internet browser and go to http://gmail.northshore.edu

1. You will be presented with a login screen - enter your Campus Pipeline username and password. **Note:** Even though you are accessing Gmail your username and password are validated against Your NSCC campus pipeline account information stored on NSCC servers.

2. Another form will display where you need to: (1) Enter the text displayed in the graphic box (2) Read the Google Terms of Service (3) Accept the terms of service and create your account

3. You are now in Gmail - The next time you access Gmail you only need to enter your Campus Pipeline username and password.
