Advising Notes

- This program is designed upon completion to prepare students to be eligible to enter the licensure process, which includes successful completion of the national certification examination administered by the American Registry of Radiologic Technologists. Upon passing scores in the national exam, students are prepared for entry level employment in radiologic technology.
- Courses are listed in the recommended order you should take them.
- BIO211 Anatomy and Physiology 1 and MAT143 Introduction to Statistics must be completed by the end of the first semester of the program.
- Many courses have prerequisite requirements that must be fulfilled to be eligible to enroll in the course.
- If you intend to graduate with an associate degree in two years, you should enroll in at least 15 credits if taking only fall/spring courses.
- Completing at least 30 credits each year helps students stay on track to timely graduation.
- All student degree audits for graduation purposes will be based off the official program of study the student is enrolled in.

Ⓡ Required course for degree

X Center for Alternative Studies & Educational Testing (CAS) – Course competencies and prerequisites may be fulfilled through Credit for Prior Learning (CPL). Visit www.northshore.edu/cas for more information.
