

2023-2024 TECHNICAL STANDARDS FOR PHYSICAL THERAPIST ASSISTANT PROGRAM

To the Student: As you complete this form please consider your physical and mental/attitudinal ability to perform the Technical Standards associated with the health professions program that you are about to enter. Please carefully consider the expected Performance Level in this program as you evaluate your performance.

General Job Description: Physical Therapists Assistants, or PTAs, are technically educated health care professionals who work under the supervision of Physical Therapists in the provision of physical therapy services. Physical Therapist Assistants work in hospitals, private physical therapy practices, community health centers, corporate or industrial health centers, sports facilities, rehabilitation centers, nursing homes, home health agencies, schools and pediatric centers. They require strong interpersonal and problem-solving skills which are crucial to planning effective treatment plans.

Throughout the performance of your duties as a healthcare provider, you will be exposed to infectious diseases in all practice settings. Although you will learn practices and procedures to minimize the risk of exposure, you should be aware of the risk and take it into consideration when deciding to enter this program and profession.
