Department of Respiratory Care

Articulation Agreement between Boise State University and North Shore Community College

This agreement is effective as of the date of final signature below and shall be in effect for three (3) years or until earlier terminated, by one of the parties. Either party may cancel this agreement upon twenty (20) days' advanced written notice to the other party; provided, however, that any student who has already enrolled at Boise State University shall be entitled to the benefit of this agreement.

Boise State University

Regional Accreditation

Boise State University is regionally accredited by The Northwest Commission on Colleges and Universities.

Department of Respiratory Care

Professional Accreditation

The Commission on Accreditation for Respiratory Care (CoARC) provisionally accredited the Department of Respiratory Care's Bachelor of Science in Respiratory Care-Degree Advancement Program (BSRC-DAP). The last accreditation site visit was March 7 and 8, 2019, followed by a granting of provisional accreditation on March 28, 2019.

<https://www.coarc.com/Accreditation/Degree-Advancement-Standards.aspx>

Bachelor of Science Degree Curriculum

The 120-credit Bachelor of Science Degree Curriculum satisfies all general education requirements (University Foundations) and all professional curricular requirements.

North Shore Community College

Regional Accreditation

North Shore Community College is regionally accredited by The New England Commission of Higher Education (NECHE)

Department of Respiratory Care

Professional Accreditation

The Department of Respiratory Care Associate of Science Degree Program is accredited by CoARC. The last accreditation was 09/2015 and the next accreditation visit is due 9/2025

Associate of Science Degree Curriculum

The 68-semester credit, Associate of Science Degree Curriculum satisfies all general education requirements and all professional curricular requirements.

Boise State University Department of Respiratory Care Degree Advancement Program

The BSRC-DAP allows students to enroll in the Bachelor of Science Degree in Respiratory Care from Boise State University once they have met the following criteria:

- Earned an Associate of Science, an Associate of Arts, or an Associate of Arts and Science in Respiratory Care, from a regionally accredited institution whose Respiratory Care program is accredited by CoARC,
- Successfully completed at least 64 semester credit hours,
- Earned the credential Registered Respiratory Therapist by the National Board for Respiratory Care (NBRC)
- Admitted to Boise State University

Final decision for acceptance rests with the Respiratory Care department

The Degree Advancement Program is designed for Registered Respiratory Therapists who want to earn a Bachelor of Science Degree in Respiratory Care. The student is required to complete 30 upper-division credits (11 courses); each of the courses is available online. Because the student is required to be a Registered Respiratory Therapist as a pre-requisite for the program, there are no clinical courses in the BSRC-DAP.

Courses are delivered via BlackBoard, which is a web-based, course-management system designed to allow students and faculty to participate in classes delivered online. BlackBoard enables instructors to provide students with course materials, discussion boards, virtual chat, live audio-visual discussions, online quizzes, an academic resource center and more.

Online courses typically are more time-intensive than typical face-to-face courses. Students will be required to do a significant amount of reading, online posting, writing of papers and other online activities; therefore, the student must be motivated and willing to allocate a considerable amount of time for each course. For this reason, it is not recommended that students take more than two courses per seven-week session.

Because graduates of North Shore Community College earn an Associate of Science Degree and the students earn at least 64 credits, North Shore Community College graduates will meet the first two admission requirements. Once the student has passed the necessary NBRC Examinations to earn the Registered Respiratory Therapist credential, and upon acceptance to Boise State University, the student may be admitted to the BSRC-DAP.

Requirements to earn a Bachelor of Science Degree in Respiratory Care from Boise State University once admitted to the BSRC-DAP:

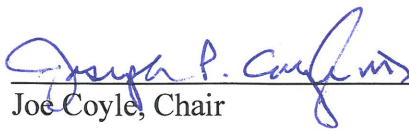

Requirements to be completed, online, through Boise State University

- Professional Courses
 - HLTH 400 Interprofessional Capstone, 1 credit
 - RESPCARE 355 Professional Communication in Health Care, 3 credits
 - RESPCARE 432 Critical Review of Health Care Research, 3 credits
 - RESPCARE 440 Senior Theory: Advanced Concepts, 3 credits
 - RESPCARE 441 Teaching Techniques for Health Care Professionals, 3 credits
 - RESPCARE 444 Leadership and Management for Health Care Professionals, 3 credits
 - RESPCARE 445 Patient Advocacy and Ethical Issues, 3 credits
 - RESPCARE 498 Senior Seminar, 2 credits
 - Any three of the following four courses
 - RESPCARE 431 Quality Improvement in Health Care, 3 credits
 - RESPCARE 442 Sleep Medicine, 3 credits
 - RESPCARE 443 Current Topics in Respiratory Disease, 3 credits
 - RESPCARE 446 Introduction to Disease Management, 3 credits
- Credit for Prior Learning
 - Students will receive 26 credits based upon passing the NBRC's RRT credentialing examinations. The NBRC examinations, through which the student earns the RRT credential, are used as external examinations allowing the student to challenge 26 credits required for the program. After successfully completing at least 12 credits at Boise State University, the student can request the credits be applied to their transcript and pay the necessary fee (currently \$200). The adviser will complete the necessary University forms to process the paperwork for these 26 credits.

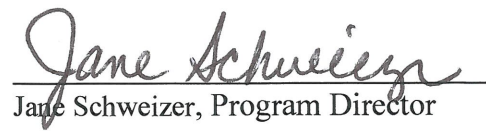

After successfully completing each of the above stated requirements, if the student is otherwise in good standing, the student will be awarded a Bachelor of Science Degree in Respiratory Care from Boise State University.

Use of Marks: Neither party shall, prior to, in the course of, or after performance under this Agreement, use the other party's name, logos, or trademarks in any advertising or promotional media, including press releases, without the prior written consent of the other party.
