

Open Access Online Course – NSCC Arithmetic Preparation

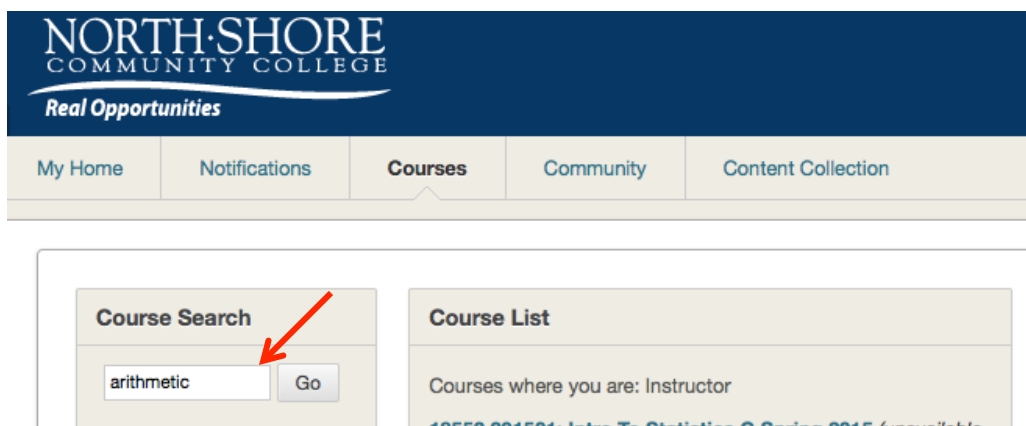

If you scored in the 20-24 range on the CARR placement test, you have not scored high enough to place into a NSCC mathematics course. NSCC strongly encourages you to enroll in this free online course to review basic arithmetic skills to prepare you to retake the test and score high enough to enroll into a NSCC mathematics course.

How to Self-Enroll in NSCC Arithmetic Preparation

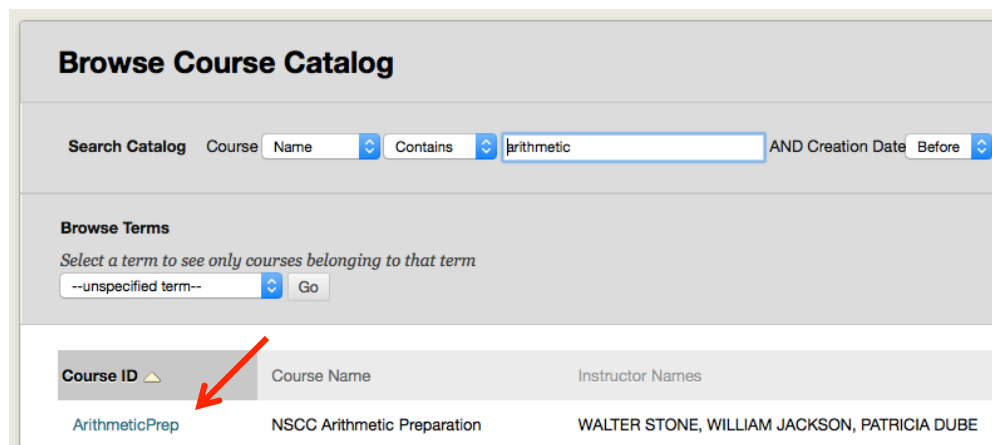

1. Log into Blackboard Learn and click on the “Courses” tab in your Blackboard Learn “My Home” page.

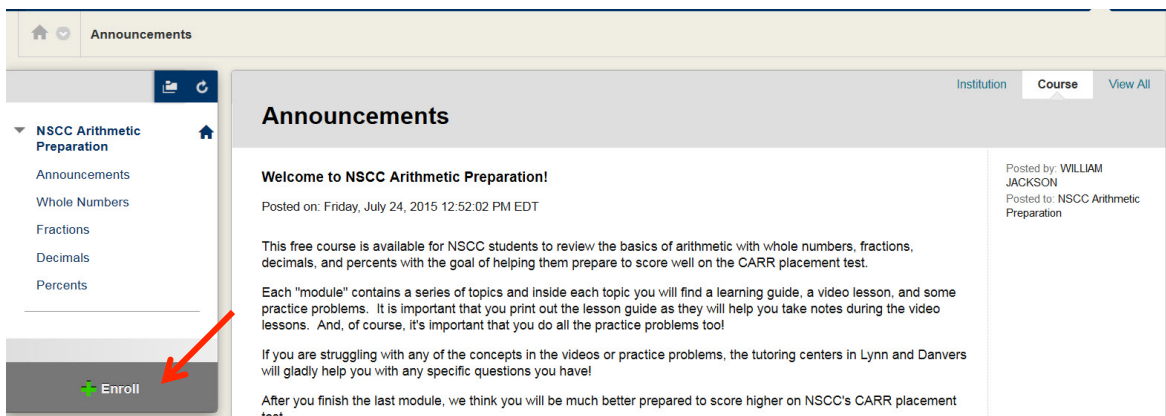

2. In the “Course Search” area, type the word “arithmetic” and click “Go”.

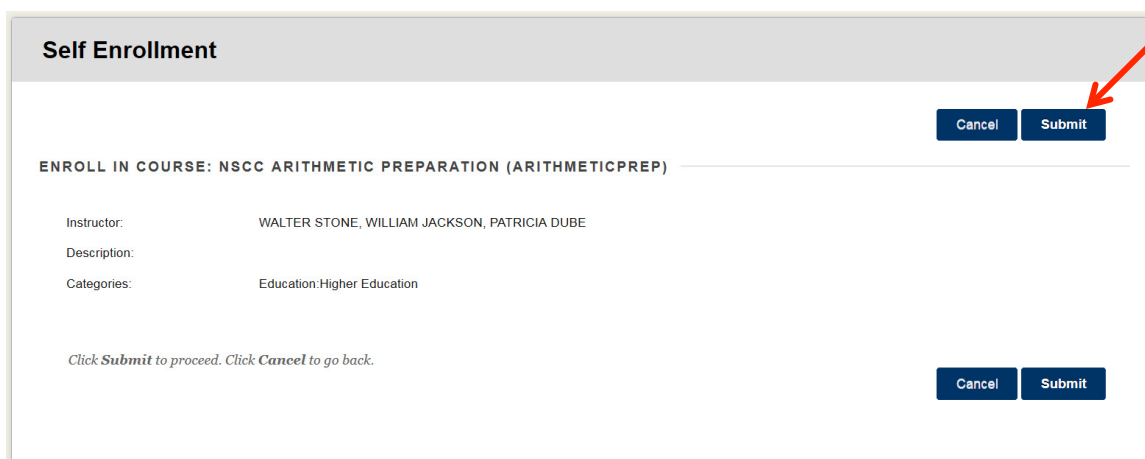

3. You will see a link for the course “ArithmeticPrep” under Course ID. Click on that link.

4. You can now enroll in the *NSCC Arithmetic Preparation* course by clicking “Enroll”.

5. Finally, on the “Self-Enrollment” page, click “Submit”.

You should see a message that the action was successful. Click “OK” in the lower right hand corner.

6. You will now be enrolled in the *NSCC Arithmetic Preparation* course.

7. When you log into Blackboard Learn the next time, you should see *NSCC Arithmetic Preparation* listed in the “My Courses” module on the “My Home” page.

If you have any questions or experience any issues enrolling in *NSCC Arithmetic Preparation*, please contact the Blackboard Learn Helpdesk at bbhelp@northshore.edu.
