New Work Policies After the Pandemic

In this **live remote** workshop, we will discuss how to prepare your workplace and train employees on safe practice to return to work after the pandemic. This includes assessing business operations, bringing employees back to work, and ensuring a safe workplace. Even if these steps are further in the future for some employers than others, the time to begin thinking about these issues is now, because with these next steps comes a whole new set of labor and employment challenges.

In this class, participants will learn:

- Guidelines for ensuring a safe workplace
- Policies and best practices
- Paid sick leave for Covid-19
- Worker's comp regarding remote work and Covid-19 in the workplace
- How to deal with employee anxiety on returning to work
- How to respect employees who are in a high-risk category
- We will all leave with guidelines and

compassionate communication tips for
employees
